Dear Mr Abbott

### LABC South East Region Building Excellence Award 2009

I would like to take this opportunity to thank you and all the project team involved with the development at 20a – 21 Palace Street Canterbury for supporting this year's Local Authority Building Control South East Region Building Excellence Awards.

It was a pleasure meeting Dave Rigden, Dave Robbins, representatives from the Developer, Architect and Structural Engineers plus all their partners at the presentation evening at Brighton.

I think that all those who attended enjoyed the evening, which was made extra special by your company being selected as one of the finalists in their category. You may not be aware but in this category there were approximately 18 nominations from local authorities in Kent, Surrey, Sussex, Hampshire and the Isle of Wight. Therefore to be selected as a finalist was a great achievement. Those on the selection panel obviously recognised, as indeed we did at Canterbury Building Control, that your company had produced a high quality building, which included a mixture of contemporary construction techniques and traditional materials.

It is my intention to produce some publicity shortly that will include your project and the other two schemes from Canterbury, which were entered for the awards. Hopefully you agree that the awards are an excellent way of bringing to the public's attention the high standards and quality that can be achieved by local Builders and in particular when built in conjunction with Local Authority Building Control.

Finally can I again thank you for supporting the event this year and hopefully there will be other schemes in the future, which you consider worthy of entering for an award.

Yours sincerely

Peter Honey  
Building Control Manager
