17 December 2008

To whom it may concern

ABBOTT CONSTRUCTION

We have been approached to provide a reference for the above company, having worked on various projects with them over a number of years.

Most recently, this involved a phased refurbishment of the existing buildings at Kent College, Canterbury and the construction of a new two storey teaching block on the site between 2005 and 2008.

Throughout the various contracts undertaken during this period, Abbott Construction carried out the work in a professional and conscientious manner, accommodating the day to day needs of the School to ensure the works minimised any disturbance to teaching activities.

Close liaison was maintained with respect to costs and project programme, ensuring the contracts were completed successfully.

We would, therefore, not hesitate in recommending Abbott Construction to carry out refurbishment or new build projects in the future.

Please do not hesitate to contact the undersigned, if you would like to discuss the above in further detail.
