Date: 25 June 2009

Dear, Phil

Re: Reference Letter

I am happy to provide you with a reference as per your request.

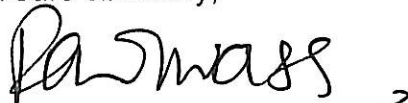

Dogs Trust and Abbott Construction, are now working together on the fourth project at our rehoming centre in Chestfield.

Our previous good experiences of working with Abbot Construction gave us the comfort of being able to negotiate this contract for what will be the largest project we will have collaborated on.

Throughout the pre and post contract periods, I have experienced only the highest standards of commitment and professionalism both in project management and in build quality from the whole team at Abbott Construction and have had comments from my entire design team endorsing this.

I would have no hesitation in recommending Abbott Construction to any future client and we are looking forward to employing them on future Dogs Trust projects

Yours sincerely,

Paul Wass

Project Surveyor
